University of Chicago Graduate Problems in Physics With Solutions

About the Book

University of Chicago Graduate Problems in Physics covers a broad range of topics, from simple mechanics to nuclear physics. The problems presented are intriguing ones, unlike many examination questions, and physical concepts are emphasized in the solutions.

Many distinguished members of the Department of Physics and the Enrico Fermi Institute at the University of Chicago have served on the candidacy examination committees and have, therefore, contributed to the preparation of problems which have been selected for inclusion in this volume. Among these are Morrell H. Cohen, Enrico Fermi, Murray Gell-Mann, Roger Hildebrand, Robert S. Mulliken, John Simpson, and Edward Teller.

Author: Jeremiah A. Cronin;
David F. Greenberg;
Valentine L. Telegdi

Publisher: Dev Publishers &
Distributors

Edition: First

Year: 2020

Dimension: 15 x 23 cm

No. of Pages: 272

Weight: 450 gm

ISBN: 9789394852709

Binding: Softcover

Territory: South Asia

Price: Rs 1295

About the Author

Jeremiah A. Cronin was assistant professor of physics at Brown University.

David F. Greenberg is professor of sociology at New York University.

Valentine L. Telegdi (1922-2006) was the Enrico Fermi Distinguished Service Professor in the Department of Physics at the University of Chicago.
