No. of Pages: 308

Weight: 480 gm

ISBN: 9789381406069

Binding: Softcover

Territory: South Asia

Price: Rs 795

About the Book

Empire of Humanity explores humanitarianism's remarkable growth from its humble origins in the early nineteenth century to its current prominence in global life. In contrast to most contemporary accounts of humanitarianism that concentrate on the last two decades, Michael Barnett ties the past to the present, connecting the antislavery and missionary movements of the nineteenth century to today's peacebuilding missions, the Cold War interventions in places like Biafra and Cambodia to post-Cold War humanitarian operations in regions such as the Great Lakes of Africa and the Balkans; and the creation of the International Committee of the Red Cross in 1863 to the emergence of the major international humanitarian organizations of the twentieth century. Based on extensive archival work, close encounters with many of today's leading international agencies, and interviews with dozens of aid workers in the field and at headquarters, Empire of Humanity provides a history that is both global and intimate. Avoiding both romanticism and cynicism, Empire of Humanity explores humanitarianism's enduring themes, trends, and, most strikingly, ethical ambiguities. Humanitarianism hopes to change the world, but the world has left its mark on humanitarianism. Humanitarianism has undergone three distinct global ages—imperial, postcolonial, and liberal—each of which has shaped what humanitarianism can do and what it is. The world has produced not one humanitarianism, but instead varieties of humanitarianism. Furthermore, Barnett observes that the world of humanitarianism is divided between an emergency camp that wants to save lives and nothing else and an alchemist camp that wants to remove the causes of suffering. These camps offer different visions of what are the purpose and principles of humanitarianism, and, accordingly respond differently to the same global challenges and humanitarianism emergencies. Humanitarianism has developed a metropolis of global institutions of care, amounting to a global governance of humanity. This humanitarian governance, Barnett observes, is an empire of humanity: it exercises power over the very individuals it hopes to emancipate. Although many use humanitarianism as a symbol of moral progress, Barnett provocatively argues that humanitarianism has undergone its most impressive gains after moments of radical

inhumanity, when the “international community” believes that it must atone for its sins and reduce the breach between what we do and who we think we are. Humanitarianism is not only about the needs of its beneficiaries; it also is about the needs of the compassionate. 12 illustrations.

About the Author

Michael Barnett is University Professor of International Affairs and Political Science at The George Washington University's Elliott School of International Affairs. He previously taught at the University of Minnesota, the University of Wisconsin, Macalester College, Wellesley College, and the Hebrew University of Jerusalem; was a visiting scholar at the New School for Social Research and the Dayan Center at Tel-Aviv University; and was a Visiting Professor at the Graduate Institute of International Studies in Geneva, Switzerland.
